

DELEGATE INVITATION

Today's inspiration for tomorrow's implementation

Interactive Essay program Master Class

DIET OPTIMIZATION, HEALTH, FARM PROFITABILITY & PROCESSING

The 2nd Master Class on 23rd of March is dedicated to swine nutritionists, veterinarians, farm managers and slaughter houses. An essay driven discussion having the interaction between you as the delegate and expertise from the speakers. On 14th of January 230 delegates voted for a live panel discussion based on questionable essays: Sharing profound knowledge on concrete cases. The VIV Master Class offers the practical know-how of real life practices to make your company perform better.

Today's inspiration for tomorrow implementation!

13.00 – 15.00 Hrs:

Diet optimization & health

Essays from Dr Jan Cortenbach, CTO at Royal De Heus:

1. How much influence has a daily cup of sugar for 5 days after weaning on farm performance?
2. How much money we can earn by changing from gestation feed to lactation feed at a later stage in the pregnancy?
3. Will the feed intake before weaning have influence on the fattening period?

Essays from Ing. (BSc) Andre Van Lankveld, Swine expert at Biomini Europe:

1. How can we handle pig production without the standard use of AGPs?
2. What are the key nutritional solutions to overcome heat stress in pigs?
3. How do endotoxins impact the health of sows and piglets?

15.00 – 17.00 Hrs:

Profitable swine farms and processing

Essays of Carsten Bo Berdersen & Joergen Moeller Andersen,

Climate experts from SKOV:

1. Why is it important to do a good research on location and climate?
2. Why is it important with the right ventilation system for the right climate?
3. How to control the climate in the different houses and for different animals?

Essays of Dr Patrick Ty, Managing Director from Proline Asia and Swine expert:

1. Is it possible to maximize your profit with high weaned pigs, with 95% sold as full-value pigs?
2. Does Best cost approach serve you better than Least cost approach? Or otherwise?
3. Are today's swine farm capable of achieving new record?

Essays of Berry Klerks, Pig slaughtering expert from MPS (the Netherlands):

1. Improving yield and lower the cost is easy?
2. How to trace meat from farm to fork?
