ILDEX Vietnam postponed until 16 – 18 March 2022 because of the new COVID-19 clusters

“V-Connect Vietnam Edition” is still set to be online during 21-23 July 2021 as scheduled

Ho Chi Minh City – Bangkok, 24 May 2021

The management team of ILDEX has decided to postpone ILDEX Vietnam in Ho Chi Minh City until 16-18 March 2022.

The decision is made in view of the new COVID-19 clusters in Vietnam and with the deep concern for the health of the exhibitors and stakeholders. According to the latest statistics, local vaccination in Vietnam has yet to reach 1% of the total population. Social activities with over 30 participants are currently banned since May and local authorities may impose stricter measurements on social activities in the coming months. By postponing the event to Q1 2022, we anticipate widespread mass vaccination can be expected in Vietnam and cross-border travel will gradually be back to normal. The event is set at an ideal timing to meet the market demand after a year-long downturn.

ILDEX Vietnam is thus re-scheduled to 16 – 18 March 2022 at Hall A1-A2, SECC, Ho Chi Minh City, Vietnam.

In the meanwhile, VNU is delighted to confirm that the virtual form of the show “V-Connect Vietnam Edition” is still set to be online during 21-23 July 2021 as scheduled. The digital event is open for 24 hours.
