

ILDEX Vietnam 2022 conference program

Wednesday, 3 August 2022

Room	Time	Organization	Topic	Agenda	Language
Convention A	9.15-11.15	VNU Asia Pacific, VEAS	Opening ceremony		
	13.15-17.15	Department of Livestock Production Ministry of Agricultural and Rural Development (MARD)	New issues in livestock management in Vietnam	13:30 - 13:40: Introduction 13:40 - 14:00: Opening Speech 14:00 - 14:20: Report on the situation of livestock in Vietnam, orientation for livestock development in the coming time 14:20 - 14:30: Q&A Session 14:30 - 14:50: New regulations in livestock management in Vietnam 14:50 - 15:30: Q&A Session 15:30 - 15:40: Time break 15:40 - 16:00: Promoting digital transformation in livestock industry 16:00 - 16:45: Q&A Session Finish	VN
SUNFLOWER A	11:15-12:15	Blue Aqua	Water Quality & Disease Management in Shrimp Farming	11.15 - Introduction 11.20 - Water Quality & Disease Management in Shrimp Farming - Dr Farshad Shishehchian, CEO & Founder, Blue Aqua International 12.00 - Q&A Session 12.15 - End	EN/VN
	12:15-13:15	KEMIN	MEFLUVAC™ H5 Plus 8 – A Vaccine To Protect Against Recent HPAI Threats (H5N1, H5N6, H5N8 and more)	12.15 Introduction 12.20 MEFLUVAC™ H5 Plus 8 – A Vaccine To Protect Against Recent HPAI Threats (H5N1, H5N6, H5N8 and more) by Prof. Wael Elfeil 13.00 Q&A Session 13.15 End of the session	EN
	13:15-14:15	Progressus AgriSchools	Advance Marine Fish Production in Vietnam by Progressus AgriSchools	13.15 Introduction 13.20 Presenting the topic of Advance Marine Fish Production in Vietnam by Progressus AgriSchools 14.10 Q&A session 14.15 End of the session	VN
	14:15-15:15	Jefo Nutrition inc.	Innovative solutions to overcome raw materials crisis and optimize animal performance	14:15 Introduction 14.20 "Innovative solutions to overcome raw materials crisis and optimize animal performance" by Denielle Marie Estacio, Technical Support Specialist and Dr. Akaradet Seemacharoensri, Technical Manager – SEA, Jefo Nutrition Inc. 15.10 Q&A Session 15.15 End of the session	EN

Wednesday, 3 August 2022

Room	Time	Organization	Topic	Agenda	Language
SUNFLOWER A	15:15-17.15	FAVA-VVA	<p>(EN) Update on the current status of Antimicrobial Stewardship(AMS) and the challenge on development of Antimicrobial therapeutic guidelines of animal diseases in VIETNAM</p> <p>(VN) Cập nhật thực trạng quản lý sử dụng kháng sinh (AMS) và khó khăn trong phát triển tài liệu hướng dẫn sử dụng kháng sinh trong điều trị bệnh động vật ở Vietnam</p>	<p>15.15-15.20 Opening session by MAI VAN HIEP, MSc,DVM Executive Committee Member, VietnamVeterinary Association (VVA)</p> <p>15.20-15.50 "Update on the current status of Antimicrobial Usage, Antimicrobial Stewardship and the development of Antimicrobial therapeutic Guideline for animal diseases in Vietnam" By TRUONG DINH BAO/Mr , PhD Lecturer, Department of Infectious Diseases and Veterinary Public Health, Nong Lam University-HCM, Vietnam</p> <p>15.50-16.20 "Prevalence and antibiotic resistance of Escherichia Coli and Salmonella spp. isolated from animals in the Mekong Delta". By NGUYEN KHANH THUAN/Mr,DVM,PhD. Lecturer, Department of Veterinary Medicine. College of Agriculture, CANTHO University, Vietnam</p> <p>16.20-16.50 "Survey on Escherichia Coli, Salmonella contamination and Residues of some Antibiotic in Pork and Chicken in some provinces of Nambo SouthernWest Region". By LE HONG PHONG/Mr MSc Director of National Center for Veterinary Hygiene Inspection No.2 Department of Animal Health of Vietnam</p> <p>16.50-17.10 Panel Discussion, Q&A session Moderator By MAI VAN HIEP, MSc,DVM Executive Committee Member, VietnamVeterinary Association (VVA)</p> <p>17.10-17.15 Closing session by Dr. Isao Kurauchi, FAVA-President Elect</p>	VN
DAHLIA	13.15-14.15	SKOV	Broiler ventilation	<p>SKOV brief introduction (SKOV, sales, service, FB page) – 9 minutes. Broiler ventilation requirements (12 minutes) BF50 (12 minutes) SKOV Controller and FarmOnline (12 minutes) Q&A (15 minutes)</p>	VN/EN
	14.15-16.15	Schothorst Feed Research (SFR)	Alternative protein sources for poultry and swine diets – European experiences	<p>Speaker presentation Schothorst Feed Research presentation Alternative protein sources – theory Alternative protein sources – practical examples</p>	VN/EN

Thursday, 4 August 2022

Room	Time	Organization	Topic	Agenda	Language
Convention A	9.15-10.15	REP BIOTECH	- Application of Multiplex Realtime PCR and Gene Sequencing To Disease Control For The Farm - MIC - Solution to control antibiotic use		VN
	10:15-11:15	Cooperl	Nucleus genetic; Health and Hygiene	Part 1: 10.15 to 10.45: Nucleus genetic. 10.15 overview about Cooperl and Nucleus genetic 10.25 Introduce about GGP/PS from Nucleus 10.35 discuss and question based on Nucleus genetic => present by Mr.Yann Morel Part2: 10.45 to 11.15: health and hygiene from Farmapro 10.45: Environment program: introduce farmasec product 10.55: Nutrition program for sow: Introduce Vitonic CH and Farmaflora products 11.05: Hygiene program: introduce Sanifarm and Alkyback products. => present by Ms.Meliane	EN
	11:15-12:15	PATENT CO.	Gut Health to Farm Wealth		EN
	14:15-15:15	Smart Livestock	Pigstech a Smart Farm Management Solution for Swine Farm	Introduction Presenting the topic of Pigstech a Smart Farm Management Solution for Swine Farm Q&A session End of the session	EN
Convention B	9.15-12.15	Vietnam Ruminant Husbandry Association	"High-quality and productivity development of beef - goat cattle in Vietnam"	09h30 – 09h45: Situation and direct solutions to develop beef farming in Vietnam. 09h45 – 10h00: Achievements in research and breeding of high-yield, high-quality beef cattle in our country. 10h00 – 10h15: Experiences and learning lessons from the development of crossbred cows in Hanoi and provinces. 10h15 – 10h30: Situation and solutions to direct solutions to develop beef cattle raising in Binh Dinh province in future. 10h30 – 10h45: Situation and solutions to direct solutions to develop beef cattle raising in Long An province in future. 10h45 – 11h00: Research on the value chain of raising high quality beef cattle. 11h00 – 11h15: Situation and direct solutions to develop goat and sheep farming in Vietnam. 11h15 – 11h30: Results of the transferring with high yielding beef and goat breeds, sperm, embryos and goats from the United States to Vietnam. 11h30 – 12h30: Discussion.	VN
SUNFLOWER A	10:15-11:15	BEHN MEYER	1/ Creamino - enabling healthy growth through flexible feed cost reduction 2/ Total solution in Biosecurity program		VN/EN

Thursday, 4 August 2022					
Room	Time	Organization	Topic	Agenda	Language
SUNFLOWER A	11:15-12:15	Jefo Nutrition inc.	(1)Top 5 Tips for Building a Resilient Animal (2)Jefo Matrix Technology to Help Control Digestive Issues	11:15 Introduction 11:20 "Top 5 tips for building a resilient animal" by Dr. David Marks, Intensive Livestock Consultant, Livestock Solutions and Services Ltd. 11:40 Q&A Session 11:50 "Jefo Matrix Technology to help control digestive issues" by Von Gervic Mesina, Technical Support Specialist, Jefo Nutrition Inc. 12:10 Q&A Session 12:15 End of the session	EN
	13:15-14:15	Aviagen	Checklist for Maintaining High Life of Flock Fertility		EN
	14:15-16:15	Huali	Technical Solutions Chief Huali	Main Conference Title: Technical Solutions Chief Huali Sow productivity the Key issues by Roger Philip Parfitt	EN
	16:15-17:15	Progressus AgriSchools	In Pond Race way System: the future of Vietnam Aquaculture by Progressus AgriSchools	Introduction Presenting the topic of In Pond Race way System: the future of Vietnam Aquaculture by Progressus AgriSchools Q&A session End of the session	VN
SUNFLOWER B	9.15-12.15	National Agriculture Extension Center (NAEC)	Farm Animals Welfare, Trends, Opportunities, and Solutions for the Livestock Industry in Vietnam	09h00 – 09h45: Strategies for the development of Vietnam's livestock production and contents in accordance with international standards on animal welfare. 09h45 – 10h30: Updating for OIE requirements (Office International des Epizooties) on the welfare of layers and sows. 10h30 – 11h15: The welfare of farm animals in European-Vietnam Free Trade Agreement (EVFTA) and in bilateral cooperation program Vietnam EU and UK. 11h15 – 12h00: Discussion: Petition for animal welfare for breeders, businesses, organizations and individuals related to livestock production.	VN/EN
	13.15-14.15	Hoa Lâm	Applying Alternative Ingredients Efficiently and Profitably in the Vietnamese Feed Industry.		VN
	14.15-15.15	EVONIK VN	"Digital and bigdata solutions for feed ingredient management" "Potential energy sparing effects of Guanidinoacetic acid in broilers diets"		VN/EN

Friday, 5 August 2022					
Room	Time	Organization	Topic	Agenda	Language
Convention A	9.30-15.30	NONG LAM UNIVERSITY	"Solutions for the livestock industry during the crisis period in terms of the price of feed"	09:15-12:15: Solutions to the scarcity of raw materials for animal feed production Mycotoxins and solutions for diagnostic and control Heat shock protein gene: research and application in animal breeding 12:15-15:30 Studies on medicinal plants for animal health Situation and applying research results to improve the reproductive performance in cattle in Vietnam African swine fever: biosecurity practices in the new era	VN
